Design: BALLENDAT

Features:

- A** The S6 has a durable and comfortable mesh cover. This promotes well-ventilated sitting and supports a comfortable ergonomic posture.
 - » High breathability
 - » Seat and back support made of glass fibre reinforced polymer
 - » Suitable for a body height of 1.10 to 2.00 meters
 - » The chair can carry a load of up to 90 kg
- B** Seat height, seat depth and backrest height can be adjusted easily and intuitively using fold-out levers.
- C** Optional back and seat cushions easily replaceable by push-buttons: The cushions are available in 2 different fabric qualities and in 14 different fabric colors.
- D** Sturdy inclined frame made of strong tubular steel. Available in white and grey.
- E** Six-armed ultra-wide foot base provides extra stability and safety.
- F** Castors are slightly braked for highest safety requirements and are suitable for hard and soft floor coverings.

Addition:

- G** Glider

- ⊞ 22,9 kg
- ⊞ 0,28 m³
- ⊞ 2

Design: IDAID

Features:

- A** The moll S9 is a swivel chair of a special kind: The swivel chair consists of separate seat and backrest elements, which provides more variety in the seat adjustment options.

- » Seat and back element made of durable microfibre cover
- » Suitable for a body height of 1.10 to 2.00 meters
- » The chair can carry a load of up to 100 kg

- B** The chair combines 2 adjustment mechanisms: Mechanical adjustment to set the basic height for different body sizes, and gas spring adjustment for fine tuning.

Intuitive control systems enable the user to adjust the seat depth and height easily. The seat can be turned for different adjustment ranges.

- » Seat depth: 32 to 45 cm
- » Seat height: 34 (46) to 45 (57) cm
- » Seat tilt: approx. 4° to the rear, approx. 7° to the front and maximum 5° to the side
- » Backrest height: 39 (49) cm - two basic positions of the backrest element can be selected

- C** The S9 has a hook for a bag or jacket at the back and a secret compartment underneath the seat.

- D** The color of the back and seat elements can be individually combined – 8 fabric colors are available.

- E** Sturdy swivel chair frame in white.

- F** Five-armed ultra wide foot base provides extra stability and safety.

- G** Castors are slightly braked for highest safety requirements and are suitable for hard and soft floor coverings.

Addition:

Glider

moll S6

Please notice: When ordering the S6, please specify the desired frame color. The seat and back cushions can be ordered optionally.
